Hi All,

I'll update the agenda as we get closer to the meeting date. A tentative list of items to discuss is included below. Please let me know if there are any topics you'd like to hear about from EPA. We can call Richard's office for the meeting, unless there's a conference room we should call instead.

- 1) AZ Solar One case-by-case MACT determination
- 2) Hickman Farms, fugitive source characterization guidance
- 3) Intel Ocotillo Campus
- 4) General update on regulatory actions from EPA

Thanks,

Eugene
